Reviews

Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Sallie Wiegand)

HUMAN RESEARCH PROGRAM (HRP) EXPLORATION MEDICAL CAPABILITY (EXMC) STANDING REVIEW PANEL (SRP)

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The SRP believes strongly that regularly performed in-flight crew assessments are needed in order to identify a change in health status before a medical condition becomes clinically apparent. It is this early recognition in change that constitutes the foundation of the occupational health model expounded in the HRP Requirements Document as a key component of the HRP risk mitigation strategy that will enable its objective of prevention and mitigation of human health and performance risks. A regular crew status examination of physiological and clinical performance is needed. This can be accomplished through instrumented monitoring of routine embedded tasks. The SRP recommends addition of a new gap to address this action under Category 3. 0 Mitigate the Risk. This new gap is closely associated with Task 4. 19 which addresses the lack of adequate biomedical monitoring capabilities for performing periodic clinical status evaluations and contingency medical monitoring. A corollary to these gaps is the critical emphasis on preventive medicine, not only during pre- and post-flight phases of a mission as is the current practice, but continued into the in-flight phases of exploration class missions. This item ships from La Vergne, TN. Paperback.
