Brand New Book ***** Print on Demand *****.Excerpt from Vaudeville Ventriloquism: A Practical Treatise, on the Art of Ventriloquism The art of producing tones and words without any perceptible motion of the mouth, so that the audience is induced to refer the sound to some other place is called Ventriloquism. Many people believe the sounds are produced from the stomach. This belief is merely mistaken supposition. We all know that the organs of speech are located in the throat and not in the stomach. The name of this exceedingly interesting and mysterious art is founded upon the before mentioned supposition The ventriloquial entertainer can give a show most anywhere and under any sort of conditions with his vent figure; in a theatre, hall or drawing room and almost anyone who possesses good vocal powers and studies these lessons (written by two vaudeville performers who at times presented a ventriloquial specialty in vaudeville) will within a reasonable time with the proper amount of practice and study be able to give a performance to entertain, mystify and also to earn money by putting on a ventriloquial act. To become a violinist, one must practice and practice, to become a ventriloquist one must also practice and by studying and following these instructions carefully, lesson by lesson, the student will surprise himself with results attained. Rome, they tell us, was not built in a day; neither are good ventriloquists made over night. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
