Brand New Book ***** Print on Demand *****.Isaac Newton (25 December 1642 - 20 March 1727) was, as considered by others within his own lifetime, an insightful and erudite theologian. He wrote many works that would now be classified as occult studies and religious tracts dealing with the literal interpretation of the Bible. Newton's conception of the physical world provided a stable model of the natural world that would reinforce stability and harmony in the civic world. Newton saw a monotheistic God as the masterful creator whose existence could not be denied in the face of the grandeur of all creation. Although born into an Anglican family, by his thirties Newton held a Christian faith that, had it been made public, would not have been considered orthodox by mainstream Christianity; in recent times he has been described as a heretic. Newton relied upon the existing Scripture for prophecy, believing his interpretations would set the record straight in the face of what he considered to be, so little understood. Though he would never write a cohesive body of work on Prophecy, Newton's beliefs would lead him to write several treatises on the subject, including an unpublished guide for prophetic interpretation entitled Rules for interpreting the words language in Scripture. In this manuscript he details the necessary requirements for what he considered to be the proper interpretation of the Bible.
